ANTELOPE VALLEY SEX OFFENDER

Last week, a high-risk sex offender was released from prison and moved to Lancaster near his mother's Antelope Valley home. A newspaper article also states the mother is a foster parent. Although the convicted sex offender is not allowed near the mother's home as a condition of his parole, the community is concerned regarding the safety of the foster children residing in the home.

I, THEREFORE, MOVE that the Board direct the Department of Children and Family Services to report back in 3 days regarding the steps taken to ensure the safety of the children residing in the foster mother's home.
